Meeting with Greek Animation Festivals and Schools

The Department of Architecture at the University of Thessaly (Volos) organizes a one-day professional and academic Meeting each May, along with the Animation Festivals and the Academic Institutions providing Animation courses in Greece. In these meetings we discover the variety of artistic approaches that Festivals pursue, and the complementarity of Animation Education Curricula in Greece. The typical content of these meetings includes academic and professional talks, a selection of award winning films from each festival, and student projects implemented within two years before the meeting.

STRATOS STASSINOS GREEK ANIMATION ANNUAL AWARDS

The ASIFA HELLAS Award for Best Greek Animated Film was introduced in 2015 by the ASIFA HELLAS Board (sponsored by the Greek Film Centre and co-organized by Greekanimation.com) to celebrate the 70 years of Greek animation (1945-2015) and focus on the present and future of Greek animation artists working both in Greece and abroad. The award was renamed in 2016 as Stratos Stassinos Award to honour the eponymous Greek pioneer (1945-2009) of hand-drawn and stop-motion animation. The establishment of the Stratos Stassinos Award by ASIFA HELLAS serves to acknowledge the artistic excellence and the growing international visibility of Greek animation films in recent years (2010-present), both in student and professional films; to create a strong sense of community and collaboration between Greek animators working in a field itself characterized by communal effort; and, finally, to enable and empower Greek practitioners to continue their artistic efforts in the international animation scene. Films who have already competed at Greek animation festivals serve

as the pool for preliminary award selection, while the final decision is the result of voting among ASIFA HELLAS members. In 2020, ASIFA HELLAS celebrated 75 years of Greek Animation and decided together with the Greek Film Centre to recognize explicitly student achievements by offering a Student Award in parallel with the Professional Award.

This year's ceremony, held in May 2022 in the Greek Cinematheque, respecting Covid-19 sanitary guidelines, awarded Aris Kaplanidis for his 2D Animation short *From the Balcony* (2020) in the professional category, and Anastasia Papadopoulou and her film *Elevator Alone* (2021) in Student Category.

Greekanimation.com

The web portal Greekanimation.com was created on the occasion of the 70th anniversary of the screening of the first Greek animated movie (1945). It is an attempt to register all Greek animation works as well as those who contributed to their creation, the production companies, the festivals, the awards and in general all the information related to the history of the 8th art in Greece. The aim of the portal is to present the Greek animation worldwide and to highlight its contribution to education and organized production.
